

Heating & Cooling Systems

Fan Coils

Enhancing the efficiency and comfort of your cooling system

featuring

Puron
ADVANCE™

Model FE5B, FT5, FJ5, FMA5L, FMA5X,
FMC5Z, FMU5Z, FMC5X, FMU5X

Benefits of a **FAN COIL SYSTEM**

Maximize summer and winter energy bill savings

SEER2 (Seasonal Energy Efficiency Ratio) ratings are like your car's MPG – the higher the number, the greater the potential for savings. Our fan coils are designed to maximize the performance of a matched Bryant air conditioner or heat pump, and many of them can actually boost the published cooling efficiency (SEER2) for even greater savings.

Durability

For enhanced protection of the indoor coil from premature damage due to corrosive airborne elements, Bryant offers DuraTech™ coil protection on certain fan coil models.

Humidity Management

When installed with a humidity-sensing thermostat and matched outdoor unit, Bryant fan coils can provide added comfort and efficiency through humidity management during the cooling season.

Environment

With Puron Advance™, Bryant proudly continues our commitment to environmental stewardship. It's a refrigerant that delivers a 75% decrease in global warming potential while maintaining original Puron's non-ozone depleting properties. All new Bryant products with Puron Advance include factory-installed leak dissipation systems to meet new UL requirements and to show our commitment to safety.

Low or no-interest financing

The enhanced comfort and energy savings of our Bryant fan coils is easier to afford than ever.¹

Rest easy with a long warranty

Bryant fan coils offer a 10-year parts limited warranty upon timely registration.²

Excellent comfort **WHATEVER** the heat outside.

featured TECHNOLOGIES

Complete Bryant fan coil systems feature these exclusive advancements.

Perfect Humidity® Technology

Helps ensure great summertime dehumidification when system components include multi- and variable-speed cooling products.

Perfect Heat® Technology

Continually monitors and adjusts performance for multi-stage fan coils using current and past conditions.

DuraTech Protection

For enhanced protection of the indoor coil from premature damage due to corrosive airborne elements, Bryant offers DuraTech coil protection on certain fan coil models.

Take charge with a complete **FAN COIL SYSTEM**

Ask your Bryant dealer about how you can maximize your home comfort system with additional Bryant products.

**EVOLUTION™
CONNEX™ CONTROL** **AIR
CONDITIONER
or HEAT PUMP** **FAN COIL** **AIR PURIFIER** **HUMIDIFIER** **VENTILATOR**

Capable of managing a complete home comfort system including humidity, ventilation and zoning.³

High-efficiency cooling or cooling/heating power delivering whole-home comfort and energy savings.

UV lamps are a critical line of defense in keeping your cooling coil clean, by killing mold and bacteria, which can grow on your evaporator/cooling coil in the HVAC system.

Uses Captures & Kills® technology to inactivate 99% of select airborne pathogens trapped by the filter, including coronavirus, bacteria and other pathogens.⁴

Alleviates dry air by adding moisture.

Transfers heating and cooling energy to the incoming fresh air.

BRYANT COMFORT SOLUTIONS

There is a Bryant product for almost any heating and cooling need or budget.
Only your Bryant dealer can help you decide which is right for you.

¹ For qualified buyers. See dealer for details.

² The limited warranty period is five years on parts if not registered within 90 days. Jurisdictions where warranty benefits are not conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate at Bryant.com for complete details and restrictions.

³ When connected to the Internet through a Wi-Fi® network.

⁴ The Evolution air purifier has demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, the Evolution air purifier can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Third-party testing (2012, 2007) also shows ≥99% inactivation for the type of virus that causes common colds, Streptococcus pyogenes and human influenza. Airborne particles must flow through your HVAC system and be trapped by the Evolution filter to be inactivated at 99%. Learn how it works at Bryant.com/purifier.
